## Feladat

### About the tasks

#### You build it, you run it!

To support a German government contract we are seeking a high profile DevOps team to build up and support a system with 80 Million users.

In the ramp up phase we seek the skill overkill to assure the best possible service from the start.

The skills required are based on DevOps principles and specific toolset.

Some elements as on call are very well known not desired by many, but a true DevOps has the mentality to build it as good, that he never has to wake up at night.

Are you up to the task?

- Conception, implementation, operation and documentation for cloud projects, solutions and products
- Customer consulting on cloud architecture and intensive collaboration with developers and internal departments of customers around agile DevOps and operational processes
- Collobaration and controlling in DevOps topics for agile methods (consulting and operations projects)

- Experience with automation tools like Ansible or Terraform
- Experience with NGINX, KONG, Redis, Postgres, Docker, Jenkins, Grafana und Prometheus
- Experience in cloud environment / cloud technologies (Azure, Kubernetes, Docker)
- Logical reasoning and pro active solution finding on a technical level
- Willingness to travel
- Knowledge of infrastructure capabilities (network, VMs, OS)
- Good knowledge about SM9, CMDB, ... (intern tools)
- Can create structured documentation
- Willingness for on-call service
- German and English language skills

### Soft skills:

- Deployment Automation with Infrastructure-as-Code and configuration management tools
- Conception, enhancements and optimization for continuous integration, continuous delivery
- Application transformation using cloud-native-architecture
- Improvement of availability and performance
- Support for simple programming tasks (Python, Java)
- Perform health checks, optimize monitoring and executing deployments in cloud environments
- Troubleshooting and participation in call readiness
- Presentation of concepts and solutions for the customer

- Customer-oriented thinking and handling (service)
- Ability to communicate and work under pressure
- Poise, teamwork, flexibility and initiative

## Rólunk

Present in the market under the Deutsche Telekom IT Solutions brand name, IT-Services Hungary (ITSH) is a subsidiary of the Deutsche Telekom Group and is the largest ICT employer in Hungary. Established in 2006, the company provides a wide portfolio of IT and telecommunications services with more than 4500 employees. ITSH was awarded with the Best in Educational Cooperation prize by HIPA in 2019, acknowledged as one of the most attractive workplaces by PwC Hungary's independent survey and rewarded with the title of the Most Ethical Multinational Company in 2019. The company continuously develops its four sites in Budapest, Debrecen, Pécs and Szeged and is looking for skilled IT professionals to join its team.
